Web-based BOT Agenda System
Administration
District Clerk
\$17,055

Justification:

Staff has researched various options to the current time-intensive M.S. Word converted to PDF format agenda process for the past year. BoardDocs Pro best meets the needs of BBRD as it is an easily customizable, cloud-based agenda and document management service. Developed specifically for public governing bodies, BoardDocs Pro is a turn-key, state-of-the-art solution that includes all supervision, labor, materials, hosting, hardware, licensing, training, technical support, upgrades and documentation necessary to implement and maintain an effective electronic meeting and document management system. In addition to dramatic improvements in the agenda management processes and effectiveness, subscribers (organizations using this service) consistently report substantial annual cost savings, time-of-staff savings of up to 75% and increased transparency for residents.

Additionally, the District Clerk will be able to record the action details during BOT meetings. BoardDocs Pro also supports multiple motions per agenda item, multiple votes per item and also supports consent agenda items. Using the consent feature, the BOT can vote on several agenda items at once. Many other features are available for the ease of staff and residents in assembling and accessing the agenda, minutes and other documents. A savings of approximately \$3,945 will affect the recurring cost by eliminating the agenda and minutes search software, Clerkbase, currently in place.

FY19 Approved Budget Decision Point

Title: Cook - Full Time Conversion (0.23 FTE)

Department: Food & Beverage

Sub-Dept.: 19th Hole & Special Events

FY19 Costs: \$17,505

Justification:

The short term and long term success of the Food and Beverage Department depends on a team of strong, well trained culinary staff delivering consistent service and high quality of product. The addition of 1.0 FTE Cook and deletion in 0.77 FTEs of part-time positions (0.61 FTE Cook and 0.16 FTE Catering Coordinator) will result in a net increase of 0.23 FTE and will add tremendous value to the services the department can continue to provide to the community. It is vital to secure a stable and cohesive team to not only continue the success of the department but to be prepared to grow our sales and services given the plan to build efficiently equipped facilities. This can happen by recruiting and retaining qualified culinary staff to work in our kitchens. Staff believes that the conversion of a part time cook to full time will provide consistency of product and service, increase sales and meet the current and long term goals of the District.

The Department has 16.82 FTEs proposed for FY19, of which 5 are full-time employees. This decision point would add a 6th full-time position.

Title:	Seasonal Groundskeepe	r Positions (0.85 FTE)
Department:	Property Services	
Sub-Dept.:	Grounds	
FY19 Costs:	\$19,283	
Justification:		
Property Service	es is responsible for all co	mmon area turf and planter maintenance (excluding the golf Course)
plus DOR violat	ion lot mows (last year, st	aff maintained over 100 lots found in violation of the DOR).
Numerous sma	II projects coupled with th	ne summer heavy rains resulted in a backlog of work. Not only were
residents unha	ppy with the appearance	of the common areas but the timeliness of project completions
suffered. This r	equest will add two seaso	nal (5 months) 40-hours a week positions to the Grounds Sub-
department to	help raise the service leve	el towards the expectations of the residents.

Title:	Building Tech III (1.0 FTE)
Department:	Property Services
Sub-Dept.:	Buildings
FY19 Costs:	\$45,921

Justification:

The addition of 1.0 FTE Building Tech III will increase the productivity of the P. S. Building staff. By adding	
another Building Tech III, the department will be able to execute many more projects (one-time and/or	
maintenance related). The addition of a Building Tech III position will permit more complex projects to be	
completed quicker in addition to increasing the turn around speed of work order requests.

Title: Property Service Radio System Repeater

Department:	Property Services		
Sub-Dept.:	Buildings		
FY19 Costs:	\$6,800		
Justification:			
Within the FY1	8 Budget, Property Service	es has funding for handheld radios to make communication be	etween
		out of BBRD, even the best of radios only work so well. To get	
		ded which can connect to the large antenna at the Property Se	
Building (at Fal	con Drive). The addition o	of a repeater system should will make the radios capable of rea	aching
all of BBRD, inc	cluding the beach.
