

Pre-submittal Site Inspection Questions

Roof over bar: Bid as close to the plans as possible. Cost savings may be an optional submittal.

Material for bar: The end result must look consistent with the existing building. The evaluation committee may decide one method over another. Options may be submitted with costs.

Bar top: Durable material to stand up to the elements.

Lighting and fans: Outdoor fans with adjustable lighting preferred

Eliminate #48 blender

If 3 bay sink is not required for an outdoor bar using all disposables, eliminate the 3-bay sink.

An underbar beer cooler is needed. Size to fit existing space. Mobile ice bins may be rolled out of bar area for additional space.

#52 is a 4 tap kegerator. A beer chase system is not required.

#47 Under bar fillers & drainboards: shelving for paper goods and supplies is needed

POS system will be provided by Barefoot Bay

Outlets are needed in POS/Kegeator area. An outlet is needed near #44 Island Oasis machine. Another under is preferred. An outlet will be necessary for the underbar beer cooler. Wiring in metal tubing attached to building and exposed is fine. Painted to match building.

The Island Oasis machine is provided by "Island Oasis". This does not need to be purchased.

#49 ice bins need to have speed racks for liquor bottles attached
